Career Objective

I aim to contribute for the success of organization and enhance my professional capabilities. Also, to expand my expertise in software development by exploring new technologies and methodologies in the field, while focusing on personal growth through continuous learning and research.

Professional Summary

- Frontend Developer with **2+ years** of IT experience. Skilled in building **responsive**, **scalable web applications** integrated with modern backend systems like Laravel and WordPress.
- Proficient in developing responsive and dynamic web applications using **HTML/HTML5, CSS/CSS3, SCSS, JavaScript, TypeScript, React JS, Redux Toolkit, jQuery, JSON, AJAX,** and **Bootstrap**.
- Implemented easy to use **Bootstrap plugins** for building **carousel, accordion, modal windows** etc.
- Experienced in working with **Redux architecture** using complex Object-Oriented concepts in improving the performance of the websites.
- Skilled in integrating frontend designs with **Laravel Blade templates** and **WordPress themes**.
- Collaborated closely with the testing team to identify, troubleshoot, and resolve **UI bugs** and **development issues** reported during QA cycles, ensuring a smooth and user-friendly experience.

Technical Skills

- **Specializations:** React JS, Redux Toolkit, jQuery, Ant Design, Material UI (MUI), Chart.js, Apex Charts.
- **Languages:** HTML/HTML5, CSS/CSS3, SCSS, JavaScript, TypeScript.
- **Frameworks:** Bootstrap, React Bootstrap, Tailwind CSS, Next.js.
- **CI/CD & Version Control:** Git
- **Low-Code/No-Code Tools:** Webflow, Wix Studio
- **Code Quality & Formatting Tools:** ESLint, Husky

Education

- **K. J. Institute of Engineering and Technology** | Bachelor of Engineering | Jul 2020 - May 2023
- **Government Polytechnic Gandhinagar** | Diploma Engineering | Aug 2013 - Jun 2016

Experience

React JS Developer - Softieons Technologies | June 2024 – Present

- Managed and optimized a **Next.js e-commerce website**, addressing multiple challenges such as fetching and displaying dynamic product data, handling product count management, and updating product prices based on selected variants.
- Implemented efficient solutions for other **e-commerce-related functionalities**, **improving overall site performance** and **reliability**.
- Developed new design of **solitaire filter section** in an ecommerce website with Next JS and TypeScript.
- Integrated APIs for **product listing**, **product reviews**, and **wishlisting** cart section and the checkout process using **Redux Toolkit**.
- Optimized site performance by using best practices in **code splitting, lazy loading**, and **React hooks** to improve speed and scalability.
- Developed a complete e-commerce platform using **React.js**, handling everything from UI design to functionality integration.
- Maintained and enhanced an existing **Next.js** based e-commerce site, focusing on performance optimization and UI improvements.
- Designed and developed **15+** frontend HTML websites, ensuring responsive, user-friendly, and visually appealing layouts.
- Led the redesign of **3+** Laravel-based CRMs, including Chatieons, Travellions, and Neil Tours and Travel, improving functionality, user experience, and design aesthetics.

Front End Developer - Solwin Infotech | Feb 2023 – May 2024

- Collaborated with a cross-functional development team to build and maintain **web applications using React.js**, focusing on reusable components and scalable architecture.
- Developed and implemented front-end solutions aligned with **project specifications** and **user experience goals**.
- Participated in **Agile**, cross-functional teams to gather design requirements, develop features, and support testing processes.
- Supported the QA team in identifying and resolving design and responsiveness issues in custom **WordPress plugins**.
- Integrated **RESTful APIs** for dynamic data handling in a project management tool, managing full CRUD operations for tasks, projects, and user activities.
- Created a custom interactive project timeline chart using timer data, visualizing task durations and project progress with **Chart.js** and **Apex Charts**.
- Optimized UI components for performance, reusability, and accessibility across multiple browsers and devices.
- Actively participated in code reviews and contributed to improving coding standards and frontend architecture.
- Created reusable components and maintained consistent design patterns using design systems and libraries like **Ant Design** and **Material UI**.

Projects

E-commerce Website (DrBWC)

Tech Stack - HTML, SCSS, Bootstrap 5.3, JavaScript, Reactstrap, React JS, Redux Toolkit.

- Designed, developed, and maintained a fully functional e-commerce platform supporting dynamic product listings, user interaction, and secure transactions.
- Built a responsive and scalable UI using SCSS with centralized variable management for consistent styling across devices.
- Used Redux Toolkit to manage global state efficiently, ensuring a predictable and maintainable architecture.
- Implemented core e-commerce features such as categorized product views, customer reviews, wishlist management, shopping cart, checkout flow, and user authentication.
- Integrated a dynamic navigation system with real-time structural updates through the admin dashboard.
- Improved performance and perceived load time using lazy loading and skeleton loaders, enhancing user experience during data fetches.
- Collaborated with cross-functional teams in Agile sprints to deliver scalable and production-ready features on time.

Multivendor E-commerce Website (Zweler)

Tech Stack: Laravel, React, Next.js, Tailwind CSS, React Query, TypeScript

- Managed and enhanced a scalable multivendor e-commerce platform, ensuring smooth integration between the frontend and backend.
- Added responsive, modular UI components, improving the overall user experience for both vendors and customers.
- Resolved complex frontend issues, including product count discrepancies, pricing/quantity logic, and user role inconsistencies.
- Optimized the admin dashboard for seamless management of product images, data synchronization, and dynamic content rendering.
- Collaborated with the backend team to enhance API performance and maintain data integrity across different platform modules.
